I would be able to contribute by supporting the development of digital governance across the school, building digital trust within the school community, looking at supporting positive digital integration, no one size fits all. As an educator and a parent much of my work has been about supporting the knowledge gap with parents, teachers and students to create understanding and balance. I would like to offer guidance and assistance where needed to support the school to develop in all aspects of student life, be able to help create opportunities to collaborate with external partners more. Support parent workshops. Advise on strategic projects, as this is a large part of my own role.
